CEDAR CREEK WINERY

Tuesday AUGUST 23

11:30 - 12:30

JAMES CASTRISSON MOTIVATIONAL SPEAKER

Collaborating to win. Effective collaboration is the most important element of success, whether you're striving to grow a company or you're voyaging across an ocean or tundra. Without real collaboration both endeavours are bound to fail.

In this engaging keynote you'll learn critical steps in creating a tribe that is aligned and working together, that supports each other, and that doesn't put personal ambition and success over that of the organisation.

This is the perfect session on how to develop a "culture" that is geared towards collaboration, and ultimately: success.

12:30 - 1:15

LUNCH

1:15 - 2:30

JAMES CASTRISSON UNCHARTERED WATERS

Survival Workshop. This experience emotionally engages audiences through metaphor, creating a shared platform to explore team dynamics, decision-making and key insights applicable to life in the real world. Teams are led through a HPT setup and then (using footage from the actual Tasman crossing) they make decisions that were faced on the Tasman. Each decision has consequence, and these consequences impact on whether teams make it across the Tasman Sea unsupported... or not.

The synergies in achieving a world record and managing a successful business ensures your team will leave with proven tools and techniques that will drive alignment, leadership and teamwork.

EVENING

TOP GOLF

WEDNESDAY WATERCOLOUR PAINTING

Wednesday

AUGUST 24
